Ergonomics & Soft-Tissue Injury + COVID-19 Infectious Disease Prevention - Hotel Housekeeping Evaluation & Risk Assessment -

Services	Description	Price
Worksite Evaluation Regulation	<p>OSHA regulations require every hotel, at a minimum, to evaluate and assess risk on an annual basis. Risk should also be evaluated when new equipment is installed, a process changes, new risk is introduced into the workplace, and as the result of an injury investigation.</p> <p>COVID-19 has added an additional layer of risk to industrial health and safety, and has influenced other areas of employee health & safety.</p> <p>Currently, Cal/OSHA is requesting funding to mass hire investigators.</p>	
Scope of Work	Accurate Ergonomics (AE) will perform a Soft-Tissue Injury and/or COVID-19 Prevention, Housekeeping Evaluation & Risk Assessment, plus deliver improvement strategy recommendations.	
Pre-Assessment Preparation	<ul style="list-style-type: none"> Analyze the last 3-5 years of soft-tissue injury and/or COVID-19 illness metrics (optional). Provide a Risk Assessment Agenda. Meet with Stakeholders online to review and finalize Risk Assessment Criteria and Agenda. 	Included
